WORK EXPERIENCE

Since 2019, Mr. Vista has forensically investigated a number of litigation cases in the State of California that cover a wide variety of topics including Premises Liability, Slips, Trips & Falls, Product Defects, Safety and Mechanical Engineering and Vehicle Accident Reconstruction. Relative to these assignments, his duties have included: inspections of incident sites and production of associated photographs, video, diagrams, and animations; research of building codes and industry standards; reconstruction of vehicle accidents, including calculations; development of technical reports and declarations.

In 2018, Mr. Vista successfully obtained an Engineer in Training certification. In 2021, Mr. Vista successfully obtained a certification for the operation and testing of the English XL Variable Incidence Tribometer and has conducted slip resistance testing on numerous floor surfaces and flooring types. In 2024, Mr. Vista successfully obtained an Associate Safety Professional certification and a Certified Playground Inspector certification. In 2025, Mr. Vista successfully obtained a Certified Safety Professional certification.

Mr. Vista also works directly with licensed Architects, Civil Engineers, Safety Engineers and General Contractors.
